PETITE FRITURE

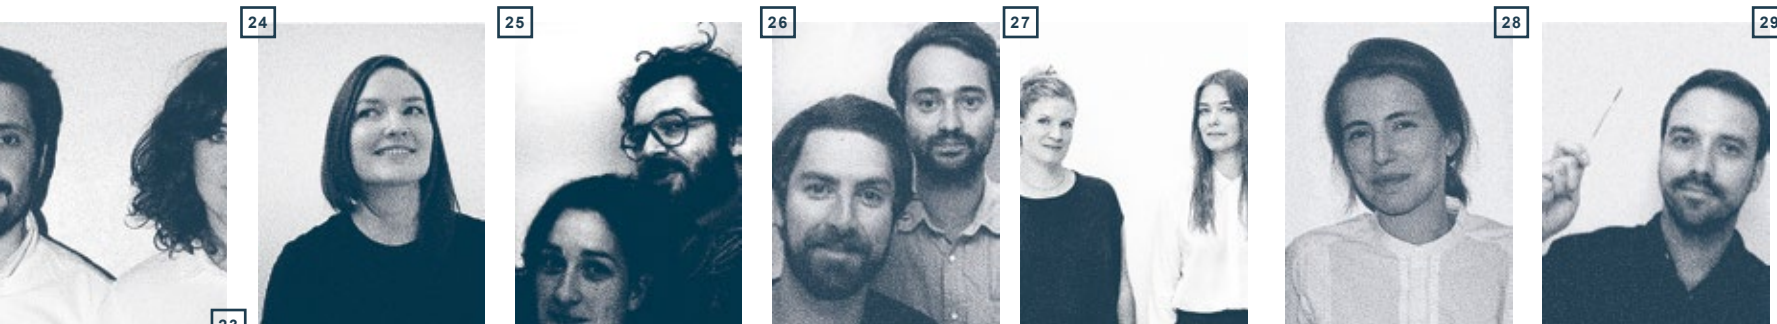

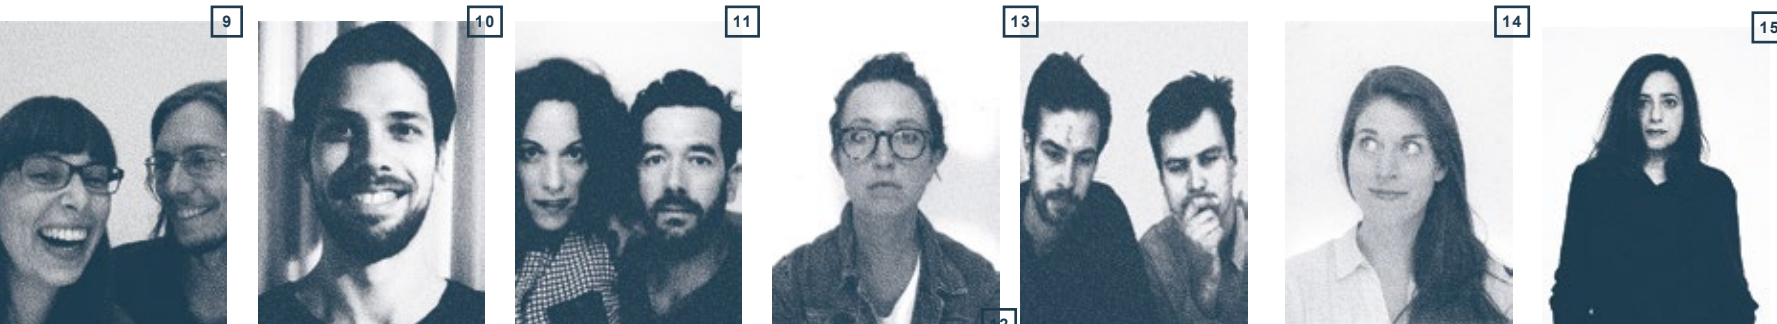

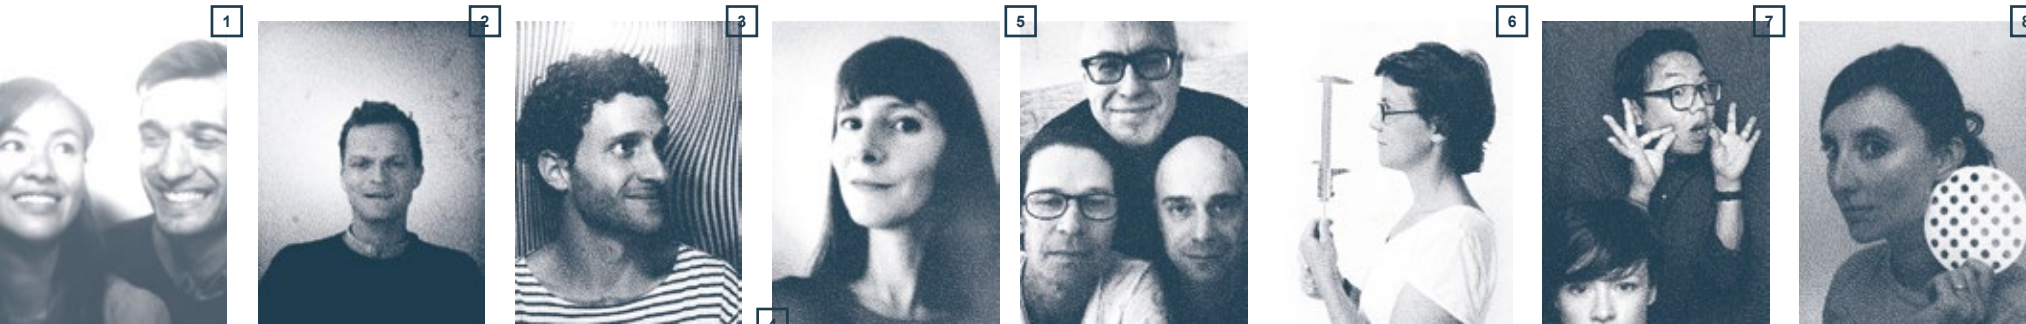

**PETITE
FRITURE**
ÉDITEUR DE DESIGN

PETITE FRITURE is an *Éditeur de designS*, founded in 2009 and run by Amelie du Passage. Through its original collaborations with designers coming from various fields **PETITE FRITURE** thrives on the need to give new life to **products, places** and **moments** that are beautiful, light and delicate. All of this is tempered with the same spirit and created with the same demanding levels of results.

At **PETITE FRITURE** we have a taste for emerging and audacious creation that bypasses frontiers and arouses emotion.
And a conviction: **creation has no worth unless it is shared.**

In order for you to discover the talents that we are so passionate about, **PETITE FRITURE** invites you into a surprising experience with the will to make you smile.

**PETITE FRITURE.
Make Good Things Happen.**

COLLECTION

01 | 2017

Furniture, lighting, accessories

AURA
TOMAS KRAL

AURA is a pendant lamp in a rolled metal sheet which plays with light in the same way as a delicate lace veil.

+ MARKET – Noé Duchaufour - Lawrance – see p.29 / 44

NARCISO
ECAL / GIORGIA ZANELLATO

Draw attention to the role of flowers by using NARCISO and its mirrored stainless steel.

FRANCIS
CONSTANCE GUISET

Coming from experiences with pigments diluted in water, FRANCIS is an echo of an ageing mirror with its bright oxidation.

MINERA
STUDIO NOCC

The MINERA water jug is inspired by a smooth pebble on which crystals have aggregated, the water flows on the uneven side like a small stream.

GRID POOL

In 2015 POOL signed the GRID daybed, referring to the Bauhaus style and honouring the graphical talents of the duo.

In 2016 POOL develop the concept and bring GRID in an all too modular system, by creating basic modules: simple armchairs, corner armchairs, stool, and coffee table join the range with the two seats sofa. They can all be attached by simple fixations in order to create many configurations: 3 seats sofa, corner sofa, confident... to suit any envy.

CAST
studio vit

CAST is a duo of lights, a game of geometry and of materials where the sphere in glass and the concrete hemisphere create a dialogue.

HOFF
MORTEN & JONAS

HOFF created by designers duo Morten & Jonas is a collection of two modular stools and two modular armchairs. They enable to compose a sofa as an entire living room area. Its main characteristic is the visual and tactile qualities of surfaces. Morten & Jonas work with objects that they hope make people feel something.

LOOP
AMANDINE CHHOR

A poetic shelf with beautiful curves inspired by constraints of industrial production of trolley.

ÉTOILE
CLAESSON KOIVISTO RUNE

This chopping board is above all about geometry, when a carved pattern becomes more than an ornament and embodies a function.

PETSTOOLS
HANNA EMELIE ERNSTING

PETSTOOLS are not only stools, but delightfully playful and cosy companions.

ANT
SAM BARON

An ant prisoner of a glass sphere tells us a story: when the invisible becomes visible.

PANACHE
CONSTANCE GUISET

PANACHE, adorned with its colored tassels, is a mirror with mischievous elegance and exacerbated forms.

VOLUTES
TIPHAIN DE BODMAN

Signed by Tiphaine de Bodman, VOLUTES is a new pattern declined in wallpapers as well as cushions. It evokes movements and vibrations. VOLUTES is a twirling brush stroke that evokes the fields of wheat of Van Gogh and the meadows of Max Liebermann.

+ VOLUTES cushion
Tiphaine de Bodman – see p.45

GRANDISSANT
JEAN-CHARLES AMEY

Thought as an organic candleholder, GRANDISSANT alludes to the image of trees structure, and invites us to change its shape to our ideal.

WILD THINGS
PIERRE FAVRESSE

This container gives a fantastic sensorial experience hidden under the shape of an innocent but strange and wild animal.

JUNGLE
TIPHAINE DE BODMAN

The JUNGLE wallpaper, signed by Tiphaine de Bodman, brings your home to life in an exotic atmosphere. The JUNGLE pattern exists also declined in cushions.

+ JUNGLE cushion
Tiphaine de Bodman – see p.45

NUBILO
CONSTANCE GUISET

NUBILO is a dreamlike destination, where the soft and round cushions can be easily arranged to ensure your comfort.

+ BASIL – Arthur Leitner – see p.26 - 27

VARIATIONS
TIPHAINE DE BODMAN

From distilled water to a cluster of dots, this wallpaper will have your head in the clouds.

BASIL
ARTHUR LEITNER

With an aerial structure that plays with the density of the geometrical tabletop, BASIL tables were born from the wish to use cork's natural qualities.

+ WILD THINGS – Pierre Favresse – see p.23

LANTERNA
SAM BARON

From a simple lamp to a recollection of Chinese rounded lantern, the pendant lamp LANTERNA with its golden heart is a tribute to light.

SO-SAGE
SAM BARON

Sam Baron signs SO-SAGE, pendant lamps in evocative forms of “sausages” in moulded blown borosilicate glass. Each is unique.

+ MARKET – Noé Duhaufour - Lawrance – see p.10 / 44

SUCCESSION
PETITE FRITURE x REVOL
FÄRG & BLANCHE

The organic and contemporary aesthetic of the collection SUCCESSION is born from the spirit of experimentation of Färg & Blanche and the exacting standards of savoir-faire of the REVOL artisans, the historic manufacturer of French porcelain.

CURIOSITY
SAM BARON

With a humorous reference to hunting trophies, CURIOSITY make a surprising hop in your interior.

**ISO - A & ISO - B
POOL**

With its strong graphism, ISO plays
with perspectives and volumes.

PARROT
INDIA MAHDAVI

An orange-red foot combined with a colorful and geometric tabletop, bring to life chatty tables.

CHERRY
DANIEL • EMMA

Head over heels or cherry on the bottom, with the new CHERRY pendant lamps the designers, from Daniel • Emma studio, enhance light with the irised cherry and its conical hat.

MASK
FEDERICO FLORIANI

Like a painted mask over a shaman's face, the graphic lines of the mirrors give a good twist to your reflection.

BUBBLE
VAULOT & DYÈVRE

Popped out straight from Vaulot & Dyèvre's imagination, the BUBBLE coat pegs are like soap bubbles frozen and solidly fixed forever.

BAMBOU
CÉLINE FRÉBAULT

Inspired by nature, the salt and pepper set is like two transparent branches set on the table.

MOIRE
MARC SARRAZIN

Thought of as a garment, the moiré effect of the textile sublimates the atmosphere by creating a diffused light.

WILD CAR
PIERRE FAVRESSE

The organic scaly form of this moneybox evokes a universe that is at once familiar yet remote.

OBJETS 2822
GAËLLE GABILLET &
STÉPHANE VILLARD

These black glass decanters invite you to create your own products or use refillable products.

VERTIGO
CONSTANCE GUISET

Movement, illusion, lightness, surprise...
VERTIGO reduces space to an intimate atmosphere and comes to life when draughts make it slightly lose its balance.

DOTS
SHELLEY STEER

The DOTS pattern was created through the exploration of the form and action of expressing dots with graphite. Pressure and placement combine to create a leaf motif, which is then layered and put into a repeating pattern. The DOTS pattern is declined in wallpapers and cushions.

MARKET
NOÉ DUCHAUFOR - LAWRENCE

MARKET is a range of tables that is inspired by the wooden lattices that form market stalls. Its simple design makes it easy to match with our everyday interior.

+ TRAME – Amandine Chhor & Aïssa Logerot – see p.46

MINERALS
SHELLEY STEER

The MINERALS pattern was designed taking inspiration from naturally occurring minerals and rocks. Colour, form and surface markings were interrupted and altered to create a unique surface design. The MINERALS pattern is declined in wallpapers and cushions.

MÉDITERRANÉA
NOÉ DUCHAUFOR - LAWRENCE

Inspired by the weightlessness “of laundry billowing in Mediterranean balconies” MÉDITERRANÉA is an elegant series of light: a cloth of brass with a perforated graphic motif, resting on a light structure, which sculpts and diffuses the LED light.

+ VOLUTES cushion – Tiphaine de Bodman
+ JUNGLE cushion – Tiphaine de Bodman
+ DOTS cushion – Shelley Steer

TRAME
AMANDINE CHHOR &
AÏSSA LOGEROT

Two main tracks come in a curve together to create this comfortable armchair.

+ VERTIGO – Constance Guisset – see p.43

CANDLE TORCH
ANDREAS ENGESVIK

With its protective shape CANDLE TORCH gives the flame a powerful glow and a magical touch.

TIDELIGHT
PIERRE FAVRESSE

Hand blown in a mould, TIDELIGHT's texture and shape increase light's diffusion and striped glow.

OUTDOOR

HOLLO
AMANDINE CHHOR & AÏSSA LOGEROT

The HOLLO tables and stool are a tribute to industrial codes with a shape that gives priority to use and function.

GRILLO
ELISE FOUIN

The wall lamp GRILLO is a simple perforated circle that diffracts and dims light like a solar eclipse. GRILLO exists in two versions: the wall lamp with a simple electrical point connected directly to the wall, and the wall lamp embellished by a colored cable (switch and plug) providing a great liberty to set up the lamp as it suits you.

+ BASIL – Arthur Leitner – see p.26 - 27

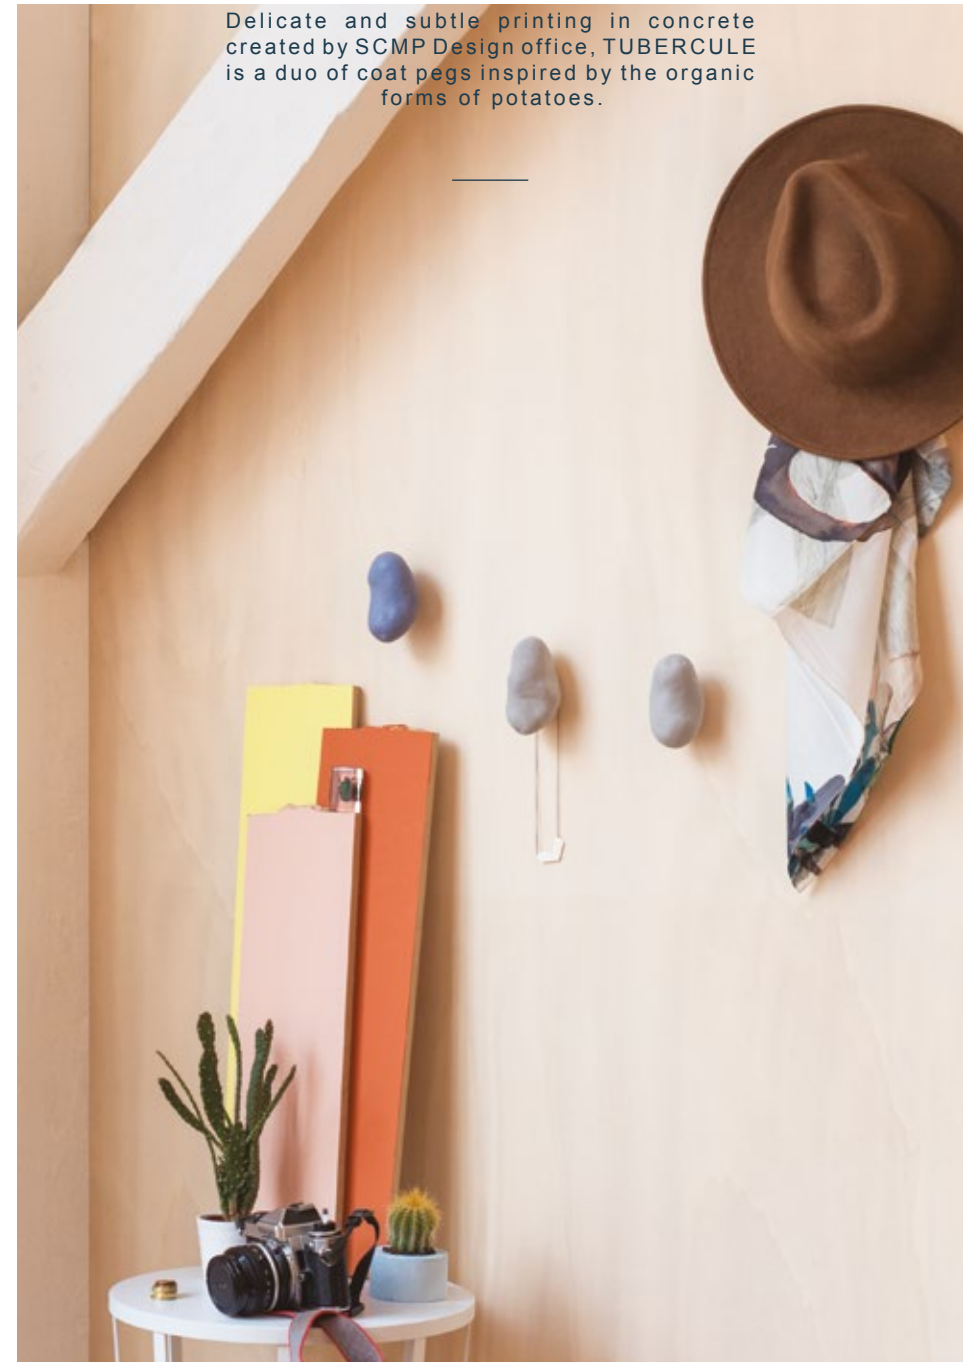

BRILLE
PETITE FRITURE

PETITE FRITURE transcribes on this old fashioned striped bowl in a universal language the French expression « Boire du petit lait ».

TUBERCULE
SCMP DESIGN OFFICE

Delicate and subtle printing in concrete created by SCMP Design office, TUBERCULE is a duo of coat pegs inspired by the organic forms of potatoes.

Glossary

IP ratings are the specifications or 'code' that grade the protection factor given to any light fitting against the touching of live parts (electrical) and protection against the access of solid items/bodies. In addition, the code specifies protection against the harmful ingress of liquids to the light fitting.

Each IP code, has two digits to define its level of protection.

- 1st digit : protection against the access of solid items/bodies (2=protection against the access of solid items > 12,5mm)
- 2nd digit : protection against the harmful ingress of liquids (0 = unprotected)

The CE mark indicates that a product meets the requirements of relevant EEC directives **EN 60 598-1** and **EN 60 598-1-2**. Its prime purpose is to facilitate its free trading and movement within the EEC. It's also a safety and quality proof.

Max power - CE marking :
Our lightings comply with the CE mark within the limits of suitable bulb.

The Glow Wire Test simulates thermal stresses which may be produced by such sources of heat or ignition. The test certifies that the tested product is non inflammable between 0° et the maximum indicated temperature.
