Silver Tre is a small workshop in Milan, born from the brothers Traviganti who have years of work in the workshop of his father and have acquired over time all the secrets of the handmade metal and its finishes.

In our laboratory we continue to invent and propose new models for the furnishing of home, from the center pieces to serving trays, from tables to console or to objects of pure design.

The design along with glossy or satin finish in gold or silver and together the use of enamels in all colors and shades make all the customizable items which can be inserted in specific contexts.

With imagination and taste, you can create a wide range of products for home with simple and clean lines, in classic style or in artistic decorative style.

The client can provide an idea, an accurate drawing or just a photo to create with us an exclusive line for his house and its environments.
